We Offer an After- School Program

designed to provide instructional curriculum and continuing academics to students attending the Chicago Public Schools.

This program has been in operation since 2013.

The program is designed to promote child safety, strengthen academic potential, and provide mentoring.

We offer homework assistance, mathematics and English Tutoring, and a Summer youth camp.

In the School Programs

It is a proven fact that keeping students engaged in their curriculum strengthens their study habits and educational skills, and promotes productive behaviors leading to attainment of higher grades.

Beginning this Spring, March 2020, we will be offering a full on-line curriculum grades 6-8 and a tutorial program for all grades to students who are registered for our After- School programs. Parents may register their students for the program on a part time basis during the school year or full time or part-time basis during the Spring, Summer, and Winter breaks.
